

Warsaw, 22<sup>nd</sup> October 2012

To whom it may concern:

We would like to thank Colliers International for their great help in re-negotiating our lease contract for 56,000 m<sup>2</sup> of space in Stryków, Central Poland.

Colliers achieved very substantial savings for Leroy Merlin and secured a further lease extension on very favourable and flexible terms.

The members of Colliers Warehouse Agency team are unusually effective as support in clients and developers issues, they often propose better solutions than expected and offers competitive business advantages. I have no hesitation to recommend Colliers to companies looking for smart warehousing solutions.
