**TO WHOM IT MAY CONCERN**

**Re: Lease of 26.700 sqm in Krapkowice - Poland;**

With reference to a Colliers International tenant representation services I would like to thank **Mr. Maciej Chmielewski** and his colleagues from **Colliers International Poland** for guiding Metsa Tissue through the whole leasing process and advising us when we wished to secure new warehouse facility in Krapkowice, Silesia area in Poland.

I thoroughly enjoyed working with Colliers team on this projects because as well being true professionals showing thorough knowledge of the market, they were always willing to make time to discuss our business issues and concerns.

Unlike some agents, the Colliers' team didn't view the work as a simple transaction. They took a holistic view of our requirements and offered us several solutions and strategies. This enabled us to take the path which better reflected our business needs.

Should we require further real estate advisory services in the future, I won't hesitate to request the assistance of **Mr. Maciej Chmielewski** and his team once more as Colliers International has accelerated our success.
